To Whom It May Concern:

One of the most important decisions we all make, is who we are going to recommend business associates to. It isn't really that difficult to get a licence to become an insurance broker in Ontario, but there are some really important items that make a huge difference in who you will promote to carry on the same set of business values as you do.

And recommending another broker puts me in a really tough spot, because it is really difficult to recommend another broker unless you are completely confident that the broker you are referring is competent and professional. It is without reservation that I would highly recommend Ryan Tupper of Absolute Insurance Brokers to any company looking for new representation in the Orangeville area.

Mr. Tupper is truly leagues ahead of the competition when it comes to protecting his clients. Ryan takes it very seriously, and spends many grueling hours each year taking continuing education courses in many specialized areas of insurance. To make sure his clients are educated about the risks they face in life, and more importantly, how to protect themselves against those risks, Ryan, along with only about 253 other brokers across North America became a charter member of the National Society of Agents for Consumer Education. I've worked and studied with Ryan on numerous occasions and know how dedicated he is to educating insurance consumers on proper coverage and am highly impressed at his level of professionalism, knowledge and integrity.

Ryan Tupper and the entire team of professionals at Absolute Insurance Brokers are truly dedicated to their client's peace of mind and protection. I highly recommend them, and if I wasn't in the insurance business, they would be my first choice to protect all I cherish.

Sincerely,

Dave Stauffer
President
